About the Designer

The designer graduated from Algonquin College from Interactive Media Design Program. She came to Canada almost 20 years ago from China. She has a unique understanding and blend of these two amazing cultural backgrounds. She can speak Mandarin and English fluently. She can also understand French and Cantonese with intermediate level of speaking skills. She loves drawing and photography. She loves art and appreciate history.

My Projects

Website Redesign Project - Yifang

To provides business solution to rebuild the Website to a fresh new look! Simplicity and User Experience are the two key elements in my design. Since the brand targets on young generation. It is important to attract youngster with bright colors and contrast. However, at the same time, the navigation experience should be simple to use and easy to navigate. By using the twitter style news page. Younger generation can follow the brand by promoting them to download the app and further increasing their chances of return.

To achieve financial profit while at the same time to expand to different cities in the Canadian market. To deliver the healthy and delicious drink to Canadians.

Content Management Project - Kong Yoga

To create and maintain the website for a yoga studio named Kong Yoga. They plan to open their first yoga studio in Downtown Ottawa this coming fall. Content has been created to showcase their mood and tone. To help the client attracts target audience which is medium to high income women. Develop marketing material and content.

Responsive Website Design Project

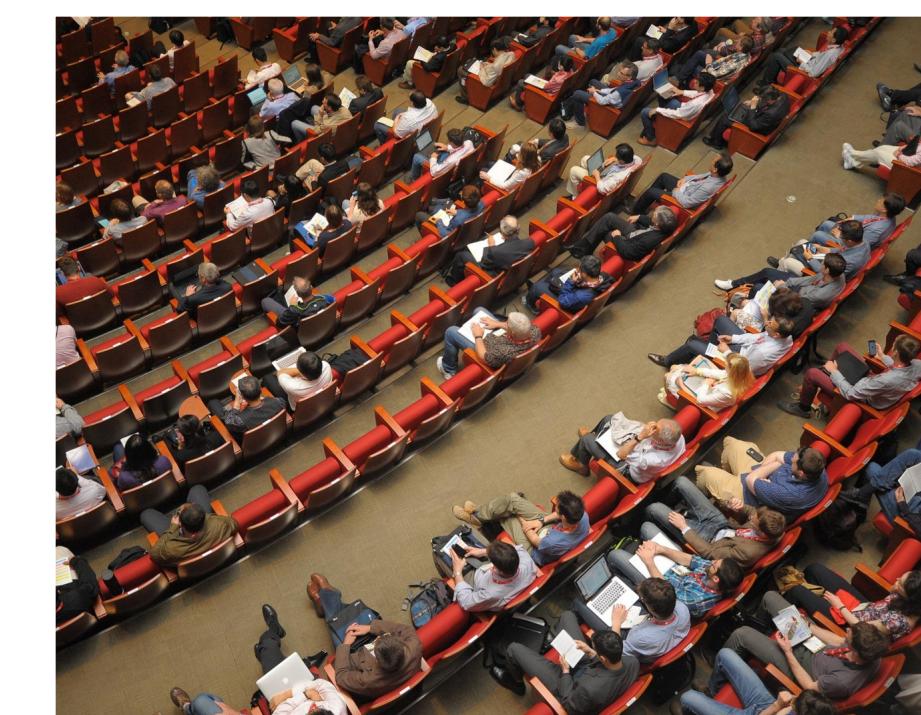

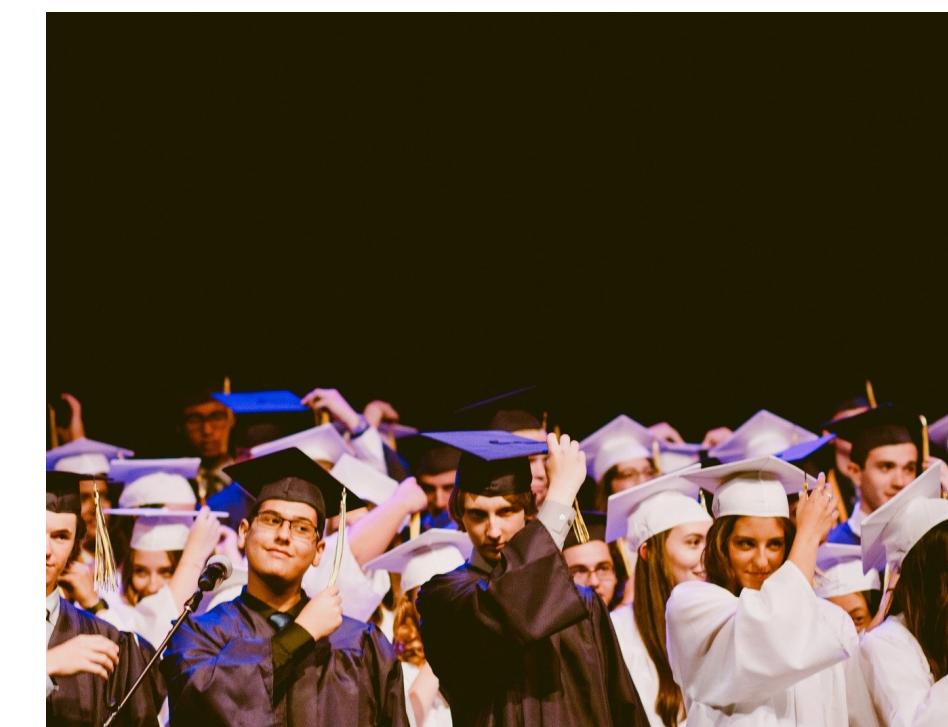

Develop website prototype with html and css. Help the client to achieve excellent search result with SEO.
